Features

- Performance & Engine •Reliable 286 cc liquid-cooled DOHC single-cylinder engine: smooth and trails. •PGM-FI electronic fuel injection: efficient fuel metering for smooth starts and performance in varied environments. •Assist/Slipper clutch: lighter lever feel and better control during downshifts. Handling & Chassis •Lightweight and agile: kerb weight around 142 kg
- responsive power delivery ideal for mixed riding conditions. •20.1 kW peak power and 26.6 Nm torque: enough punch for city roads
- making it easy to manoeuvre both on- and off-road. •Long-travel suspension: 43 mm upside-down front forks and Pro-Link rear provide confidence over rough terrain. •Steel semi-double cradle frame: strong
- gravel
- balanced handling for adventure routes and daily rides. •Ground clearance ~285 mm & 21" front wheel: ideal for tackling uneven trails. Safety & Control •Dual-channel ABS braking system: added stopping power for unpredictable surfaces. •Aluminium spoke wheels + rugged tyres: ready for dirt
- gravel
- and asphalt. Comfort & Practicality •Ergonomic riding position: comfortable for long rides and trail explorations. •Compact fuel tank ~7.8 L with efficient consumption: maximises range without unnecessary bulk. •Clear LCD instrument display: easy-to-read info at a glance. •Lightweight and versatile: perfect for beginner riders
- commuters
