Fuel Consumption
N/A

Features

- Power steering
- Alloy wheels
- Airbags
- Radio

Sellers Comments

The term "Polo Vivo" refers to a specific model of Volkswagen, a budget-friendly hatchback assembled in South Africa. It is a popular choice in its segment, known for its affordable pricing and robust nature, but has faced criticism in recent years for its increasing cost and the necessity of purchasing additional features to reach desired specifications. The Polo Vivo is available in various configurations, including different engine sizes (like 1.4L and 1.6L) and trim levels such as the base "Vivo" and the higher-spec "Life" and "Style" models
