Sellers Comments

Step into the future of light commercial mobility with the Nissan MAGNITE MOVE Panel Van – the intelligent replacement for the legendary NP200. Designed for modern businesses, this compact panel van blends efficiency, practicality, and affordability in one bold package. Whether you're a small business owner, fleet manager, or entrepreneur, the MAGNITE MOVE is built to move your business forward. Why It's Better Than a Single Cab Bakkie (NP200) Fuel Efficiency: At just 5.9 L/100 km, it's significantly more economical than the NP200's 8.1 L/100 km¹. Modern Safety Features: Includes ABS, EBD, dual airbags, and rear parking sensors – features not standard on older bakkies. Comfort & Convenience: Air conditioning, electric windows, and a quieter cabin make it ideal for urban deliveries. Security: Opaque rear windows and honeycomb partitioning protect your cargo from prying eyes. Affordability: Priced at R224,900, it's cheaper than the outgoing NP200 and other panel van competitors¹. Branding Potential: Flat panel sides offer more space for company branding than a single cab bakkie. Urban Maneuverability: Compact dimensions and high ground clearance make it perfect for city logistics. Ready to upgrade your business fleet? The 2025 Nissan MAGNITE MOVE Panel Van is available now – affordable, efficient, and built for business.
