Sellers Comments

The BMW G 310 R is a lightweight, agile roadster motorcycle designed for city riding, featuring a 313cc liquid-cooled single-cylinder engine, a steel frame with upside-down forks, and a low seat height. It produces 25 kW of power and 28 Nm of torque, and recent models include electronic throttle control, an anti-hopping clutch, and LED lighting. Its design is sporty and modern, making it maneuverable and easy to handle for various rider sizes.
